2. Any work performed for the GOVERNMENTAL AGENCY by a contractor or subcontractor will be solely as a contractor for the GOVERNMENTAL AGENCY and not as a contractor or agent of the DEPARTMENT. - 6. The incorporation by the DEPARTMENT of this resolution as part of a PERMIT does not prevent the DEPARTMENT from requiring additional performance security or insurance before issuance of a PERMIT.
- 7. This resolution shall continue in force from this date until cancelled by the GOVERNMENTAL AGENCY or the DEPARTMENT with no less than thirty (30) days prior written notice to the other party. It will not be cancelled or otherwise terminated by the GOVERNMENTAL AGENCY with regard to any PERMIT which has already been issued or activity which has already been undertaken.

## STAFF REPORT

DATE: January 26, 2015

SUBJECT: Purchase of Eagle Traffic Signals and Opticom System Equipment

FROM: Jodie Theis, Contracts and Procurement Supervisor

Date of Meeting: February 2, 2015

---

### RECOMMENDATION

The Public Works Department recommends the City Council authorize the purchase of Eagle Traffic Signal and 3M Opticom System equipment from Carrier & Gable, Inc. for the 2015 calendar year, at the prices as shown on the price quotation dated December 5, 2014 and waive the provisions of Sections 2-252, 2-253, 2-254 and 2-256 of the City Code.

### SUSTAINABILITY CRITERIA

#### Environmental Quality

The Public Works Department is ardently involved in the protection of Michigan's natural resources and the public's health and welfare. In order to continue to protect the environment and the public, the City's traffic signal system needs to be maintained in an optimal working condition.

#### Social Equity

The City's traffic signal system provides the same high quality service to all residents without regard to income level or socio-economic status. All of the City's residents enjoy equal access to the benefits of the City's traffic signal system.

#### Economic Strength

Maintaining the City's traffic signal system provides the businesses and residents of the City with safe and reliable service. A properly maintained traffic signal system can decrease the amount of traffic congestion and travel time through the City.

### DISCUSSION

The Public Works Department has standardized on the use of Eagle Traffic Signal and 3M Opticom System equipment to control the traffic signals within the City. Standardizing has reduced the amount of inventory required for the maintenance of the traffic signal system. Standardizing has also simplified the training required for the traffic signal system.

Eagle Traffic Signal and 3M Opticom System equipment is only available from Carrier & Gable, Inc. in the State of Michigan. Carrier & Gable, Inc., has submitted a quote for the items the Public Works Department may purchase over the next 12 months. Because Carrier & Gable, Inc. is the only source in Michigan, the City Council will need to waive the provisions of Sections 2-

252, 2-253, 2-254 and 2-256 of the City Code regarding publication and posting of bid notices, notification of bidders and the bid opening procedure.

#### BUDGET IMPACT

The City has budgeted \$85,000 for the purchase of the Eagle traffic signal and Opticom System equipment, which is the same budget as last year. Sufficient funds are available in the Major Street Traffic Maintenance Supplies account, 202-441-47400-775.000.

#### STAFF REPORT

**DATE:** January 27, 2015  
**SUBJECT:** VMware (vSphere Enterprise and vCenter Server) License Renewal  
**FROM:** Gail Jacobs, Director of Information Technology  
**MEETING DATE:** February 2, 2015

---

#### Recommendation:

It is recommended that the City Council authorize payment to CDW-G for the 3-year renewal of the maintenance for six vSphere Enterprise and one vCenter Server licenses for our VMware environment located at City Hall.

#### Sustainability Criteria:

Environmental Quality - Approval of this renewal does not significantly impact environmental quality.

Social Equity - Information Technology staff continues efforts toward the centralization of administrative tasks and improving scalability and workloads. This maintenance renewal will allow us to continue working with the virtualization environment at City Hall and extend the life another (3) years.

Economic Strength - The maintenance renewal is necessary for utilization of the software application and extends the life of the license from February 17, 2015 through February 16, 2018.

#### Discussion:

The VMware Environment, which is a storage area network, or SAN, is a high-speed network of storage devices that also connects with servers. Information Technology staff have been working with server virtualization technology since February of 2009. In addition to City Hall, we currently have VMware at the Clean Water Plant, the Water Treatment Plant and are implementing at the Department of Public Safety.

#### Budget Impact:

Funding (\$14,350) for the renewal of the maintenance for six vSphere Enterprise and one vCenter Server license for our VMware environment is budgeted and available in the General Fund/Information Technology/Capital Outlay Computer Equipment account #101-258-25800-984.017.

## STAFF REPORT

DATE: January 26, 2015  
SUBJECT: Bid Award, Sand  
FROM: Jodie Theis, Contracts and Procurement Supervisor  
Date of Meeting: February 2, 2015

---

### RECOMMENDATION

It is recommended that the City Council award the bid to the lowest bidder, Top Grade Site Management, LLC at \$5.67 per ton for Class II Bankrun Sand delivered via train.

### SUSTAINABILITY CRITERIA

#### Environmental Quality

The Public Works Department is ardently involved in the protection of Michigan's natural resources and the public's health and welfare. The use of sand helps to prevent soil erosion, protecting the natural landscaping.

#### Social Equity

Street and utility repairs are provided throughout the City without regard to income level or socio-economic status. All of the City's residents enjoy equal access to the benefits of the Public Works Department's street and utility repairs.

#### Economic Strength

The use of sand allows the Public Works Department to provide high quality street and utility repairs. The high quality street and utility repairs allow the Public Works Department to maintain the City's streets and infrastructure which sustains public and private property values.

### DISCUSSION

On Tuesday, December 16, 2014, the City received two bids for sand. Seventy invitations to bid were sent to prospective bidders.

The Public Works Department utilizes sand throughout the City of Wyoming to make repairs in the roadways, right-of-ways and private property that has been damaged by utility repairs or asphalt or concrete failures. Restoring the damaged property is an important function in maintaining the City's aesthetics and safety. In order to acquire quality sand, bids are received each year.

The City uses approximately 3,500 tons of sand each year. The material shall be delivered to the Public Works Department, where a stockpile of sand shall be maintained.

### BUDGET IMPACT

The low bid for sand is an increase of 28% from last year's price of \$4.08 per ton.

Sufficient funds are available in the street, sewer and water maintenance accounts: 202-441-46300-775.000, 203-441-46300-775.000, 590-441-54200-775.000, 591-441-56200-775.000 and 591-441-56700-775.000.
